## Senate Foreign Relations Committee Adopts An Amendment To Peace Treaty Giving The German Rights In Shantung To China Instead Of Japan

### Reds Score 8 Runs In 9th Inning And Win First Game

PHILADELPHIA, Aug. 23.—Before 22,000 fans, Cincinnati came from behind in the ninth inning, scoring eight runs and defeating Philadelphia 8 to 3 in the first game of today's double header.

Joe Meadows, of Philadelphia, twirled a wonderful game until the ninth inning when his arm went bad. Groh started the big rally with a double to center.

Rough followed with a double to left wing. Groh and Nantz walked. Kopf led down a hunt which Meadows in throwing from a difficult position, heard the ball into right field. Kopf and Nantz scored. After Magee lined to Lauerus, Wingo was purposely moved to take a chance on Pitcher Trager, who had relieved Ring.

Bardeen, batted for Lauerus and grounded to Blackburne. Kopf scoring. Then followed singles by Rath and Groh, which, coupled with a walk to Dubert, counted for the eight runs.

### Car Turns Over Three Times In Race

LEVIN, Ill., August 23.—With Ralph Mulford, the ranking favorite, thirteen cars were sent away at 12:01 p. m. today in the seventh renewal of the Elgin road race of 301 miles. The course was a dangerous country road 8.14 miles long. The last minute withdrawals were Perry Ford and Arthur Morris, whose cars could not be made ready for the event.

Cliff Durant, of San Francisco, winner of the Santa Monica road race, turned over three times with his machine while speeding around one of the treacherous turns, but escaped injury. His car was wrecked, however, and he withdrew from the race.

Ralph Mulford, the favorite, was leading the field of ten contestants when the first 150 miles of the Elgin road race had been covered today. Mulford's time was 1:53:39. His average was 78.6 miles per hour, a new record for the course. Arthur Kline was second and Tom Milton third. Kline's time was 1:57:12.

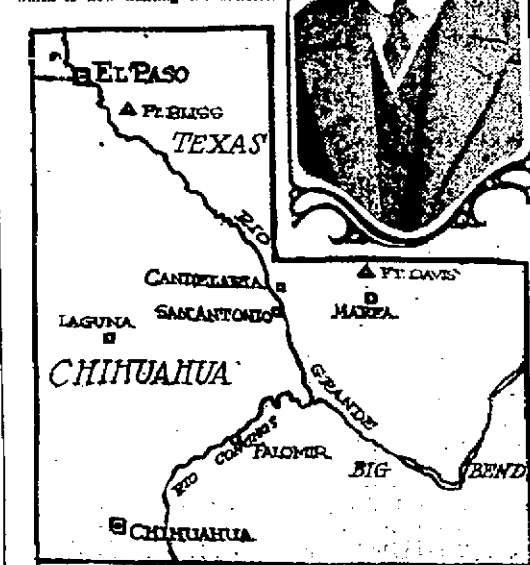

Tom Milton took the lead in the twelfth lap—approximately 99 miles. Milton had covered the distance in 1:15:31. Al Coter withdrew from the race because of a broken connecting rod.

Mulford was forced out of the lead at the twenty-fifth lap—246 miles—because of motor trouble. Tom Milton went into first place with Arthur Kline second. Milton's time was 2:37:30. Mulford did not stop until his 178th mile when lubrication trouble forced him to the pits.

### WHERE U. S. FORCES HUNT BANDITS: MAN WHO LEADS THE EXPEDITION

The map shows the rugged section of Mexico directly south of the United States border in what is known as the Big Bend country, where U. S. cavalry is in pursuit of the bandits who captured and held for ransom Lieutenant Peterson and Davis, of the army's air force. The principal towns figuring in the pursuit of the bandits are shown, enabling the reader to locate approximately the present position of the cavalry.

Col. George T. Langhorne is commander of the Eighth U. S. cavalry, which is now hunting the bandits.

### CRISIS IN AFFAIRS OF KOLCHAK GOVERNMENT EXPECTED IN 30 DAYS

WASHINGTON, D. C., August 23.—Ambassador Morris who was sent by the state department from Tokyo to Omsk, to report on conditions in Siberia, has advised the government here that the next 30 days will probably see a crisis in the affairs of the Kolchak government.

Ambassador Morris in his report, it was learned today, asserts that Admiral Kolchak has had to devote so much attention to the military campaign against the Bolsheviks that he has been unable to organize sufficiently the civil government and administration in Siberia to keep the people contented, but nevertheless, Kolchak is the best man for the task confronting him and that it is a question of his success or the triumph of the Bolsheviks.

Lack of material aid from the allies has been a tremendous handicap for Kolchak, the report states, and this has led to friction between the military commanders of the Kolchak forces. Admiral Kolchak has called on his officers, whom he cannot replace because of lack of other competent to lead the armies, to sink their differences for the sake of the country and is endeavoring to make a determined stand on a new line more than 100 miles west of Omsk. His forces are small, numbering not more than 20,000 men, the ambassador advised and the equipment

is not adequate. Military authorities in Paris and here, however, agree that the Bolsheviks are making their last desperate effort against the Kolchak troops and if they fail this time, the Soviet government in Russia will collapse. Officers here say that the Bolsheviks have not enough men or munitions to handle the situation in more than one front at a time and this is the reason. Denikin flays it a simple matter to advance in the south at this time, when the Bolsheviks have concentrated their forces on the Omsk front.

Recognition of the Kolchak government, if it succeeds in surviving the next 30 days, has been urged by Ambassador Morris. It is understood. To make this recognition effective, it is understood, the ambassador has urged that this government be ready to assist in the negotiation of loans for the Siberian government and to dispatch additional arms and munitions and later food and clothing.

The ambassador also recommended that experts be sent to Siberia at the same time the food and clothing is dispatched to aid in the distribution of it and to lend such assistance for the establishment and maintenance of civil government in the various sections of the country.

MORE NOTES TO GERMAN DELEGATES  
PARIS, August 23.—The supreme council has decided to send two more notes to the German delegation at Versailles. The first will ask that restitution be made to the Russo-Slav government for the Constantinian mines seized by Germans during the war and exploited. The second will acknowledge the German government to hand over to the allies documents relative to damages done invaded territories, especially those arising from requisitions. The second note will make it clear there can be no discussion of the treaty of peace with Germany.

### CARRANZA GOVERNMENT HAS NO INTENTION OF PROTECTING FOREIGN CAPITAL IN MEXICO

WASHINGTON, Aug. 23.—Officials here are somewhat disturbed, it was learned today, by an apparent determination on the part of Carranza and his official advisers in Mexico City to confiscate the oil property of foreigners, including Americans, in spite of the protests lodged with the Mexican government by all the nations whose nationals have investments in Mexico.

Two public declarations by Carranza close to Carranza have expressed the president's stand on this matter which public opinion, official and unofficial alike, except for the Carranzistas, have declared to be vital. The opinion of all classes in Mexico, as reported in the Mexico City newspapers and transmitted to the state department, is for a prompt and correct settlement of the petroleum question, which has been declared to be the key to relations between the United States and Mexico.

### SCOURING WILDS OF MEXICO FOR OUTLAWS

MARFA, TEXAS, August 23.—Pursuit of Mexican bandits by the American punitive expedition is continuing south from the point in Mexico where an American camp has been established. It was announced today. The trails are not considered "hot," however, as the bandits have reached the mountain fastnesses and it is feared have escaped.

MARFA, TEXAS, August 23.—Two forces of troops, Carranza federalists operating far to the south and American cavalry further north, today are scouring the Coahuila region, of Mexico in an endeavor to clear that section of bandits who precipitated an expedition into the southern republic by capturing and holding for ransom two American army aviators. Five known dead bandits was the net result of the expedition at the beginning of the fifth day of operations below the border.

More rapid progress in the pursuit of the outlaws was expected today, yesterday's chase having been largely delayed by dispatch of supplies and forces to the American soldiers. Major General J. T. Dickman, commander of the southern department, left last night for San Antonio, after completing an inspection of the border and familiarizing himself with the details of the punitive expedition. Before leaving the general said an effort would be made to pay the bandits the \$5,000 remaining of the ransom money for the aviators, though he did not say just how this would be done.

Remnants of further bandit captures and bombing of bandit strongholds which formed circulation at various times yesterday proved unfounded, but the possibility of using bombs in wiping out the bandits developed with the arrival of aerial bombs for experimental purposes and an announcement that these might be used if a bandit force should be found in any considerable numbers.

No information came from the expeditionary forces yesterday, except what brought here by aviators that the pursuit of the bandits still was being conducted. Reports that the forces would be withdrawn at a nearby date had no foundation. General Dickman, leading the expedition would remain in Mexico as long as they were following a hot trail. There was no explanation of the receding of the order for additional troops to support the punitive expedition.

HOWEY ORDERED TO BORDER  
WASHINGTON, D. C., August 23.—Major General Robert L. Howe, who has just returned to the United States from France, where he commanded one of the regular divisions, has been ordered to proceed immediately to Fort Bliss, Texas, to take command of the El Paso border district. The return of Major General Joseph T. Dickman to San Antonio last night

### ALL DEMOCRATS AND ONE REPUBLICAN VOTE AGAINST AMENDMENT

WASHINGTON, D. C., August 23.—By a vote of 9 to 5, the senate foreign relations committee today adopted an amendment to the peace treaty, by which German rights in Shantung province, China, would go to China, instead of Japan.

All the Democratic members and Senator McCumber, Republican, North Dakota, voted against the amendment.

Chairman Lodge offered the amendment under which the word "Japan" would be stricken from the Shantung sections of the treaty and the word "China" substituted.

The committee also instructed Chairman Lodge to request President Wilson to send the Senate the treaty between the United States and Poland signed June 26 at Versailles and such information as he has regarding the treaties now under negotiation with Austria, Hungary and Turkey.

Without taking up any other proposed amendments to the treaty with Germany, the committee adjourned until Monday.

Senators Hitchcock, Nebraska; Shields, Tennessee, and Pittman, Nevada, Democrats, were not present, but the votes were recorded in the negative on the Shantung amendment. The action was taken without extended debate shortly after the committee met and its work on amendments under a plan to report to the treaty to the senate if possible within the next week.

The Shantung amendment is expected by leaders on both sides to develop greater strength than any other on the senate floor. Democratic leaders say they have the votes to defeat it, but the Republicans predict that it will be adopted.

After the meeting Chairman Lodge said he did not know to what extent the request for more information might interfere with the plans of leaders for quick action of the Versailles treaty and declined to predict when the committee would be able to report to the senate.

He said that while there was a movement in the committee for a report next week, he had never expressed any opinion as to whether action then would be possible.

The committee, the chairman said, making every effort to reach a report as soon as practicable, but had been hampered because it had been compelled to get information here and there which should have been in its hands officially weeks ago.

Besides the Polish treaty and the information about the others under negotiation the committee voted to ask for copies of the protocol regarding the Rhine occupation signed by the big powers and Germany on June 15. These things, the chairman said, he considered "absolutely essential" to intelligent discussion of the treaty provisions.

The motion to ask for the additional information was made after the point had been discussed at some length by Senator Williams, Democrat.

Requests for a hearing for representatives of the Hungarian-Americans and of the African race were granted, but no dates set for them to appear. The committee took under advisement a request from British subjects in Scotland that they be permitted to present their claims for self-determination.

### HONORABLE DISCHARGES FOR MANY MEN

WASHINGTON, D. C., August 23.—Honorable discharges will be granted to all men who served in the navy during the war with Germany with good records and who have since been released with "ordinary" discharges. It was announced at the navy department today. By a ruling of the department, at the time the armistice was signed all enlisted men discharged before the expiration of the full four-year term of enlistment were given ordinary discharges. Many of these were received as a result and congressional action recently was taken to allow the awarding of honorable discharges.

Ordinary discharges may be changed, for honorable discharges by forwarding the original discharge to the navy department, bureau of navigation. The ruling includes all men who served in the navy with good records between April 6, 1917, and November 11, 1918, and who have since been discharged.

### Mexico Has Change Of Heart

WASHINGTON, D. C., August 23.—After having told William Cummings, the British charge d'affaires in Mexico City, that his presence in Mexico was deemed "incompatible with the state in which relations between this government and that of Great Britain have stood and do now stand," the Mexican foreign office is understood to have relented and Mr. Cummings expects to remain in the Mexican capital.

### ARMY SUPPLIES ARE HELD UP BY COAL STRIKE

LOS ANGELES, CAL., August 23.—Forty car loads of army supplies bound for troops on the border were held in the local freight yards today on account of the strike of trainmen of the Southern Pacific, Atchafalaya, Tropic and Santa Fe, and the Los Angeles and Salt Lake railroads.

Santa Fe officials annulled all train's last night because of inability to get engine crews to man them. They also announced that unless conditions changed, they would halt all inbound trains at San Bernardino today, because of congested yards here.

### LATIN-AMERICAN PUBLISHERS INVITED

CHICAGO, August 23.—Publishers of twenty-five newspapers in Central and South America today were invited to visit this country in the fall as guests of the Mississippi Valley association. The plan is to have visitors arrive by steamship at New Orleans and then come direct to Chicago by special train, after which the other cities in the Mississippi and Ohio valleys will be visited.

## REV. W. M. HART RESIGNS PASTORATE

Rev. W. M. Hart, who for the past  
four years has been pastor of the  
Kendall Avenue Baptist church, has  
resigned his pastorate and has accept-  
ed the pastorate of the First Baptist  
church of Cincinnati, O. He will  
preach his farewell sermon in his  
church here on Sunday, August 31.  
His successor here has not been  
named.

Rev. Hart stated Saturday that his  
pastorate here had been a most in-  
teresting one from every standpoint. He  
had the hearty co-operation of his con-  
gregation on all matters and his  
church as a result expanded gratify-  
ingly during his stay here.  
"I leave with only praise for every  
member of my congregation. My suc-  
cessor here is in a large measure due to  
their progressiveness and it is with the  
keenest regret that I sever these  
pleasant relations," Rev. Hart said  
this morning. He is capable pulpit  
orator and no doubt will put the First  
Baptist church in Cincinnati on as  
high a plane as he has the Kendall  
Avenue Baptist church of this city.

# Circus Gives Splendid Performance; Another This Evening

## Doors Open Tonight Promptly At Seven

Thousands filled the big top almost to capacity at the afternoon performance of the John Robinson circus and what a delightful show it was with its pretty ladies who swung from the very top of the tent by their teeth, hair or dainty toes.

All eyes were fascinated by the sleek, dashing horses and their riders careless of bridle or other safeguard as they dashed around the track at a break neck speed.

And such a jolly bunch of clowns, fifty in number, that touched every sense of humor of the vast throng and so endeared to the memory of clowns to the grown-ups as well as the small boys.

It was indeed a great "delicious" show and every moment was crammed full of good things in the three rings and on the two stages.

Aboard three special trains the great John Robinson Circus reached Portsmouth early this morning. Hundreds crowded the freight yards as the ponderous yellow and red wagons were rolled from the flat cars, as the tiny Highland ponies, the giant elephants and all the rest of the polyglot collection were detrained preparatory to the march to the ground on the Shiley lot beyond the hospital.

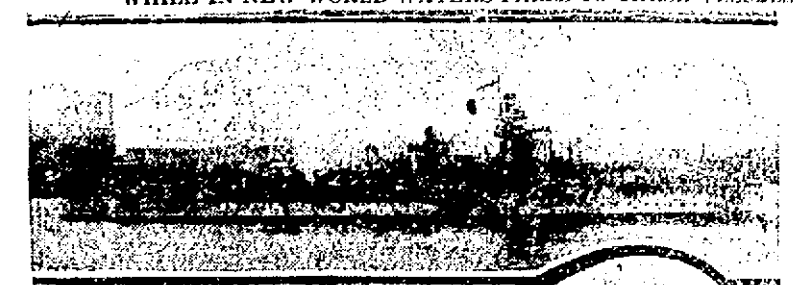

The famous John Robinson street parade, nearly three miles in length, was on the street at eleven o'clock and hundreds flocked to the down town streets and many stood on the front porches and watched truly the most wonderful parade that has ever traversed the streets of Portsmouth.

The small boy cares little for statistics. It is mainly a question of "how many elephants?" With the John Robinson Circus this season, there are three herds of the great towering animals and they appear a bit larger this year than ever before.

John Robinson's circus is the pioneer of America, claiming to be the first tented show ever organized in this country. It not only leads them all in age, but today it shows constantly that it is also in a variety of offerings in the line of skill and daring, and zest it has much that attracts young and old.

The night performance will start at eight o'clock, doors open at 7 o'clock.

## DISTINCTION OF CARRYING BRITAIN'S CROWN PRINCE WHILE IN NEW WORLD WATERS FALLS TO THESE VESSELS

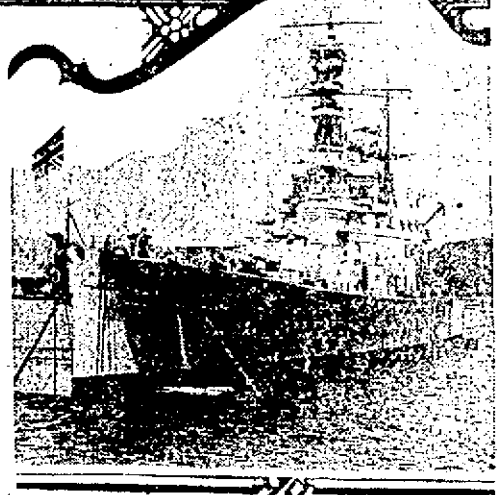

The British cruiser Dragon (above) and the British battle cruiser Renown in the harbor of St. John's, New Brunswick.

These two ships of the British navy will become familiar to many Americans about the first of November, when the Prince of Wales will pay his brief visit to the United States.

The British battle cruiser Renown brought the prince across the seas and will take him back to his home land about the middle of November. It has been announced that his royal highness will live on the Renown while seeing New York.

The British cruiser Dragon is being used by the prince to carry him from one Canadian port to another during his stay in the east. According to his present itinerary he will leave Quebec for Toronto on August 24, will leave Toronto for Ottawa on August 27, and will leave Ottawa for points west on September 1.

## Deal Off For Plants

IRONTON, August 23.—A well-known manufacturer yesterday informed the Irontonian that he had been advised through sources that he could not divulge to the experts representing the brokers who secured a price on Ashland and Ironton iron properties had formulated a report adverse to the purchase by their clients on the ground that the earning capacity of the plants prior to the dividends due to war prices, did not warrant the price asked for the industries. If this report is true, it is likely that the brokerage firm will fail to take up the properties at the figure agreed upon.

## Court House

**Taken to Lancaster.**  
James Ferguson, 14, who ran away from his home in Columbus and was apprehended here the other day, was taken back to the Lancaster Reformatory school this morning by Field Officer Almond. The lad was on parole from the Lancaster institution.

## MINFORD

Several hundred attended the annual reunion at Shuter's Grove Saturday. There will be a Sunday School reunion in the same grove Saturday, August 23.

John Erwin of South Solon, Ohio, is visiting relatives here.

Oscar Seth and family of Portsmouth, have returned from Green Bay, Michigan, where they spent their summer vacation fishing. They report having had an enjoyable time.

Many attended the ball game at White Gravel Sunday. The Petersburg boys failed to appear but the local ball clubs had an interesting game.

Horace White, of Columbus, is visiting relatives and friends here.

Joe Burro and Justice N. B. Gilliland of Portsmouth attended the big reunion here Saturday.

The teachers of this vicinity are attending the Teachers' Institute at Wheelersburg this week.

Samuel Cole is recovering from injuries sustained in an auto accident two weeks ago.

Paul Crosser, a former District Superintendent of Schools in this county is visiting R. E. Bennett of Fairview.

John Lyons of Sciotoville was calling on home folks at White Gravel last week.

## SOCIETY

Mrs. C. A. Crabtree and daughter Lennie, of Galia street, will spend next week in Columbus, where she will attend the State Fair.

Mr. and Mrs. John A. Wilhelm and son, Harold, and Mr. and Mrs. Walter L. Wilhelm and family have returned from a visit to Cedar Point.

Harold Bell Wright's book, "The Re-Creation of Brian Kent," is now on sale at W. W. Reilly's Store. 23-24

## MOVE MADE TO CONSERVE PULP WOOD

WASHINGTON, D. C., August 23.—As a step toward conserving the decreasing supply of American pulp wood used in the manufacture of newspaper, Senator Watson, Republican, Indiana, today introduced a resolution authorizing the secretary of agriculture to make a survey and preliminary investigation of the nation's available pulpwood timber supply. The secretary also would be directed to make recommendations for pulpwood utilization. The sum of \$100,000 is asked to carry on the survey and investigation.

"Two-thirds of the newspaper used by American newspapers," said Senator Watson, in introducing the resolution, "is imported or is manufactured from wood or pulp imported from Canada. One-third is made in the United States from wood grown in the United States. The former proportion is steadily increasing, the latter is steadily decreasing."

The senator told the senate that in Alaska are enormous areas of forests, the annual growth of which would supply pulp for half of the newspaper paper used in the United States. But no pulp mills are here.

To stimulate American production, he said, the following governmental policy should be carried out:

An immediate and adequate governmental survey of American resources in this field.

Immediate steps to bring about the practice of forestry and the conservation of forests in the pulp producing regions to the end that the annual increments on the forests will be lessened, and eventually will be no more than equal to the annual growth.

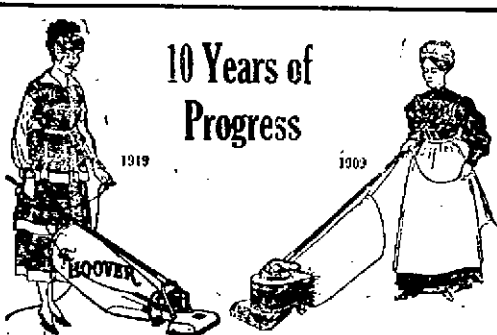

Development as soon as practicable of the industry in the northwest and Alaska.

## DEFECTIVE SIGHT IN CHILDREN

THE day is coming, and it is coming fast, when EVERY school child will be required to have his or her eyes examined for possible defects. And when that time comes many more children than at present will wear glasses. In the meantime we invite parents to submit their children to us for an examination of their eyes.

Please send at once by mail a pulley belt for sweeper. Send D.H. Also state what you charge for overhauling machine. There is nothing wrong. Bought new brush few months ago, but wouldn't lift in using nearly ten years it ought to be overhauled or not.

Very truly yours, Mrs. W. A. Scott

The above letter—from a woman who has one of the first Hoovers made—proves the long life and durability of The Hoover.

For the past ten years Hoovers have been built to last. That is why the Hoover is the oldest and most successful of all electric cleaners—and why its makers have become the world's largest producers of electric cleaners. Needless to state, ten years have wrought tremendous improvements in The Hoover. Today's models are far better in every way. As the first Hoovers, those of 1909 have been able to endure all these years, you can count on a lifetime of service from 1911 Hoovers.

The Hoover is the only cleaner which beats and thoroughly sweeps besides vacuum cleaning. Let us explain why it has stood the test of time—and why it is the best. Terms if desired.

## EARLY TRAILS AWAIT BAKERS INDICTED FOR ANTI-TRUST VIOLATIONS

COLUMBUS, O., August 23.—Early in the September term of court the five individuals and four corporations indicted yesterday by Franklin county grand jury for violating the Valentine anti-trust law by combining to maintain bread prices, according to Prosecutor Hugo Schlessinger.

Three of the five men indicted, J. W. Carls, general manager of the Reynolds Baking Company, Amos G. Beck, vice president and general manager of the Columbus Bread Company, and Sterling Donaldson, of the

Occident Baking Company, were arrested under the indictments in Columbus and released on \$5,000 bonds.

Director Urgan, of Springfield, president of the Reynolds Baking Company, was arrested in his home city and released on bond. George Bollinger, general manager of the Breunerman Baking Company, will be arrested upon his return from Wheeling, West Virginia.

All will be arraigned before Judge Kinkead, of the criminal court, Monday.

**Flour at \$1.30 a sack.**

TOLEDO, O., August 23.—The third municipal rate of flour at \$1.30 a sack was held here today, and crowds that gathered at fire engine houses quickly absorbed a large supply. Many persons were unable to make purchases after waiting in line.

It required only from three to fifteen minutes to dispose of a car load. The sale was over before fairly started and the flour was gone before many intending purchasers reached the engine houses. The city decided to sell flour at cost direct to consumers when dealers refused to sell flour and coffee at cost to help in the fight to reduce living costs.

**LOOKOUT SHOOTS POLICEMAN**

TOLEDO, O., August 23.—John Boss, a New York Central policeman, was probably fatally wounded last night near the city when a thief shot to save two companions who had been discovered in a box car. Boss is at the point of death, physicians say. The two burglars were arrested in a car of merchandise and Boss was dropped by a third man who had been stationed as a lookout.

# Examiner Furnishes Further Statistics On Service Department

The following is the second installment of the state examiner's report on the service department. Other installments will follow in The Times from day to day:

COLLECTIONS SERVICE DEPARTMENT.			
Edgar Calvert, Collector.			
	1917	1918	
Miscellaneous Sales—Hickory Fuel	Mar. 1-Dec. 31	Jan. 1-Sept. 30	
Shel	\$7.00	\$	10.00
Reimbursement—R. R. Crossing Lights	\$30.00		
Total Collections	\$37.00	\$10.00	

SUMMARY.			
Cash on hand, March 1, 1917	\$—		
Receipts, Mar. 1, 1917-Sept. 30, 1918	\$37.00	\$37.00	
Deposits, Mar. 1, 1917-Sept. 30, 1918	\$37.00		
Cash on hand Sept. 30, 1918	\$—		

The above represent the only collections made directly by the director of service to the credit of the public service fund. The market and wharf collections were made by the market master and wharfmaster and directly deposited in the treasury by said employees. The building and house moving permits were collected by the city auditor and deposited by him in the treasury to the credit of the public service fund. Hence the director of service has no record of such collections.

There are other collections made by the director of service, such as rents, street restoration and cemetery, but these are credited to special funds and do not in any way affect the public service fund.

All collections for the service department should be deposited by the collector with the service director and he should deposit the same in the treasury.

Hence, beginning with January 1, 1919, all collections pertaining to the service department will be collected by the director of service or through employees specifically authorized to make collection for said department and all revenue collected will be deposited in the treasury by the director of service or his clerk.

It was noted that receipts of the service department were deposited in the treasury monthly.

Section 289, General Code, provides: "Every public officer and employee whose duty it is to collect or receive payments due the public shall deposit all public moneys collected or received by him with the treasurer of the taxing district once every twenty-four consecutive hours."

The above law applies to every collector of public revenue in the city government except the market and wharf collectors, there being special sections governing the deposit of collections in these departments.

The Attorney General held in an opinion under date of March 13, 1912, as follows:

"An interest begins to run from the time at which the principal is due and payable. Interest will be chargeable against the collector of public revenue from the date which the statutes provide for the turning of money into the treasury. A public officer withholding money is presumed to know the law, and interest should run from the date of receipt of said moneys or when legally due. It is recommended that interest be chargeable in the case of public moneys so diverted, from the date of failure to turn over."

In a decision of the court in the case of the State of Ohio vs. Asabright, a criminal case coming up from Montgomery County, Ralph Asabright, being clerk of the Police Court of a city of Dayton, it was held that withholding of public revenue beyond the time which the statutes provide for its deposit in the public treasury constitutes embezzlement and renders the party so withholding the public funds liable to prosecution under such offense.

No officer or employee whose duty it is to collect public revenue has any business to keep money in his possession for a longer period than is absolutely necessary to make deposit of same in the treasury. The money so collected belongs to the public, and the withholding of it means a loss of interest to the public.

Inasmuch as the city treasurer's office is in the city building and open at all times during the day for the transaction of business, there can be no excuse for a failure to comply with the law as to the deposit of collections.

No findings, in the way of interest charges, are rendered at this time but should there be a failure to deposit the revenue of the service department in the manner as provided by law, doubtless findings for recovery in the future audits, will be rendered against the director of service—the officer directly responsible under his bond for all collections of his department this applying to collections for special funds as well as the public service fund.

The director of service has ordered a detailed classified form of cash book which will be installed at the beginning of the year 1919. All collections should be entered in the cash book in detail under the proper classifications, the source of revenue being fully and clearly indicated.

**SPECIAL STREET IMPROVEMENTS.**  
The special street improvement construction is classified in the auditor's records under two divisions, viz: "Special Improvements" and "Sewer Construction," the receipts and disbursements as affecting the various individual improvements being merged in these two accounts. The first above named comprehends all receipts and disbursements as pertaining to street paving; the latter as to sewer construction.

A ledger record is kept by the auditor as to the individual street paving accounts but no such record is kept as to specific sewer accounts.

It would appear that general bonds are issued for sewer construction, the various sewers to be constructed, and the amount of the bond issue to be used for each, not being specified in the ordinance authorizing the issue. As main or lateral sewers are to be constructed the council authorizes the same and the costs thereof to be paid from the proceeds of the bond issue for sewer construction. The cost of sewer construction, either for storm water or sanitary sewers, is not directly assessed against the abutting, adjacent or benefited property, but in a general ordinance of the city all parties connecting with sanitary sewers are required to pay a stipulated fee, the same being based upon the number of rooms in the premises or the character of the same.

Under this subdivision of the report we shall classify the improvement work under the headings "street paving" and "sewer construction."

**STREET PAVING.**

As previously stated, in the auditor's final ledger various street paving accounts are merged in what is known as "Special Improvements" fund.

The receipts and disbursements from said fund are summarized as follows:

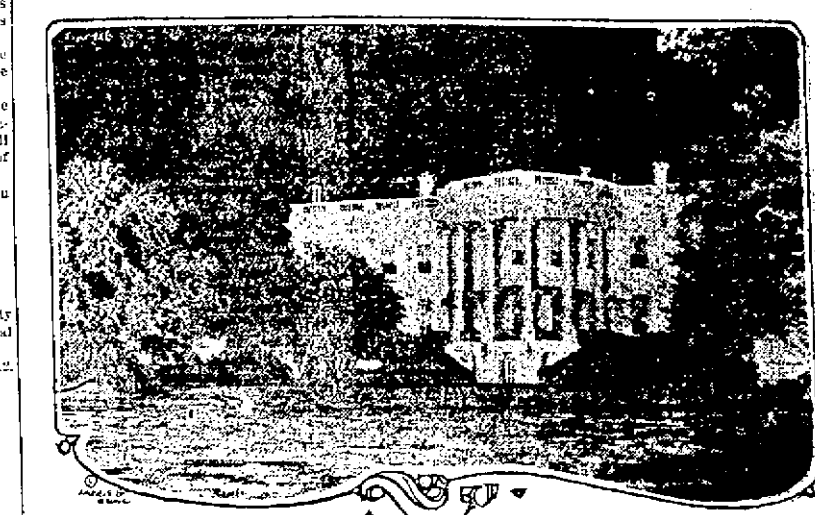

Balance February 28, 1917.	\$54,978.94
Up to March 1, 1917-Sept. 30, 1918	45,722.94
Disbursements March 1, 1917-Sept. 30, 1918	\$91,701.88
Overdraft September 29, 1918	\$3,734.50

The various street paving funds, the receipts and expenditures of which are comprehended in the above financial statement, are as follows:

(The following covers overdraft February 28, 1917; balance February 28, 1917; Receipts from Feb. 28, 1917 to Sept. 30, 1918; overdraft Sept. 29, 1918.)

## What Candidates Spent

According to their expense accounts filed with the Board of Elections last night, it cost Capt. W. J. Keyes the sum of \$143.50 to be nominated for mayor on the Republican ticket. According to a statement made to the board, Capt. Keyes received a donation of \$36 from Attorney Sherrard Johnson, of this city. J. W. Wilson, who was defeated by Capt. Keyes, spent \$54.25. He received \$20 donation from Charles E. Hard of Columbus. W. E. Sprague, candidate for municipal judge, spent \$88.50, and his opponent, Alex Woodrow, \$88. J. Earl Chandler, successful candidate for auditor on the Republican ticket, spent \$79.25. W. L. R. Jack of Lakeland and Donald Maguet of Lakeland.

## HOUSE PASSES BILL TO CURB PROFITEERS; NOW UP TO THE SENATE

WASHINGTON, D. C., August 23.—The House of Representatives today passed a bill to curb profiteers, which makes those found guilty of profiteering in the sale of the commodities named in the act liable to a fine of \$5,000 and imprisonment for two years, was retained as recommended by the committee. While the food act is being considered in the senate, the house will continue with other measures designed to reduce the cost of living. The Hutchinson cold storage bill, modeled on the New Jersey act, to which President Wilson called attention in his recent address to congress, will be reported out of committee next week and taken up on the floor of the house.

## Whole Town Of Nitro To Be Sold By Government

WASHINGTON, Aug. 23.—The town of Nitro, W. Va., a complete industrial community, embracing 737 manufacturing buildings, housing accommodations for 20,000 people, and the utilities and other improvements that constitute the necessities of a city, is to be sold by the war department as built by the federal government at a price of approximately \$1,000,000. Nitro is the site of the world's largest munitions powder plant in the world. The town, which now covers not only the town of Nitro but also the other towns of the town, was built by the federal government as a war measure, and the town is now being sold by the war department as built by the federal government at a price of approximately \$1,000,000.

## MACK J. WINS AT PROCTORVILLE

Mack J. Wins, of Proctorville, Ohio, has won the election for mayor of that city. He defeated his opponent, J. B. Wilson, by a large majority. The election was held on August 20th, and the results were announced on August 21st. Mack J. Wins is a well-known citizen of Proctorville and has been active in the community for many years. He is now the mayor of the city and will be responsible for its affairs.

## CONSUMERS WANT TO PAY HIGH PRICES, SAYS DEALER

WASHINGTON, Aug. 23.—"People ought to be satisfied with present food prices; there isn't any profiteering in the retail meat and grocery business and consumers want to pay high prices," Thomas Dunn, a St. Louis meat dealer, told the senate agriculture committee today at the hearing on legislation to control the packing industry.

"Retailers are hard-working people, calling themselves what other people won't use," Dunn said. "There isn't a retail food profiteer in the country. Everybody knows about food prices. Your wives and daughters can't be fooled into paying more."

"Well, do you think they are satisfied with present food prices?" asked Senator Kenyon, Republican, Iowa. "If they are not, they ought to be," Dunn told him. "The trouble is they want to pay more. They tell me they get their cuts of meat by paying five cents more a pound, at certain shops. I can show you places where things like canned goods vary several cents a can in St. Louis, and you find the man who charges the most sells the most."

"They rather like high prices, then," Senator Kenyon continued. "They do; the working people are the worst offenders. They absolutely won't have anything but the finest and best. The only good this investigation can do is to make these people think and get the food ideas about food out of their heads."

The live big packers are not monopolizing anything, or "robbing anybody," and need no regulation, Dunn said.

## Bread-Making Superstitions.

Regarding bread making, there are several superstitions. In Yorkshire, England, nearly all the housewives still take their own bread. After kneading the dough and leaving it to rise, a deep cross is cut in it with a knife. This is to "let the witch out," and the custom is common to this day. In Scotland they say that the yeast must be made within an hour of sunrise, or the bread will not be light.

## STAGE BEAUTIES WORKING IN NEW YORK STORES

NEW YORK, August 23.—Stage beauties who when the strike was not barred with a theatrical strike received fancy salaries, now are earning from \$15 to \$20 a week in department stores, according to Mrs. Shirley Hill, who is directing a relief bureau at Little Rock.

Many are active as telephone operators. Governor Smith was unable to leave from Albany today to attempt to settle the strike.

## Evans Is Fined

Jack Evans, proprietor of the merry-go-round at Sixteenth and Flushing streets, who was before Mayor Kays yesterday on a charge of assault and battery upon a colored boy named Walter Brown, appeared in court again this morning and changed his plea to guilty and a fine of \$25 and costs was assessed against him.

### MURDERER ESCAPES

FRANKFURT, KY., August 23.—Joseph Wendling, convicted of the murder of Alma Kellner, in Louisville, ten years ago, today escaped from the state reformatory here, where he was serving a life sentence. Guards immediately were sent out in the hills to search for Wendling, who was a trusty. The little Kellner girl disappeared in December, 1908. Her body was found in May, 1910, buried in the basement of a building on the same lot with a church of which Wendling was janitor.

A nation-wide search resulted in his arrest in San Francisco the following July.

## SOLVING THE BALKAN PROBLEM

Figures indicate main points involved in solving the Balkan problem. 1—The American solution of the Balkan problem, which is now being considered by the peace conference, would create a new buffer state in Thrace, along the eastern frontier of Greece to a point midway between Kavala and Devecich, in what is now Bulgarian Thrace. 2—Bulgaria would be assured a corridor to the sea. French and British authorities who have been on the ground assert that this is the only feasible thing to do, for if Bulgaria were to lose her outlet on the Aegean she would go to war on the first opportunity. 3—In case the Americans refuse the mandatory for Constantinople and the straits, it is considered likely that the territory would be given to Greece, as none of the great powers trusts the others to have this enormously strategic position.

## TWENTY-FIVE YEARS AGO

Rev. Ralph C. Jones, an evangelist of Indiana, conducted a three weeks camp meeting in Droge's Grove. The matter of building three districts in the East End for the protection of property there in case of fire was discussed by council.

The R. and O. accommodation and yard engine collided near the R. and O. depot. No damage was done in the accommodation but the pilot of the yard engine was knocked off. "The Liberty Bell," filled a special engagement at the Grand Opera house. The following candidates ran on the Populist county ticket: J. B. Vitek, Dry Run, county commissioner; Wesley Crabtree, Portsmouth, infantry director; J. W. McCauley, Valley township, county sheriff.

The county commissioners met to open bids for heating the court house. On vacation. Harold Butler, of Seventh street, employed as a messenger boy for the Kelly Shoe Company, is enjoying a two weeks' vacation with friends in Hingham.

## IMPRESSIVE SCENE AS TEACHERS TAKE THE OATH OF ALLEGIANCE

One of the most impressive ceremonies ever instituted in the public schools is the one in which every teacher takes an oath of allegiance to the United States government. At the Scioto County Teachers' Institute, Wednesday, in closing the institute exercises Friday, groups of teachers were taken into a class room, L. M. Barnes administering the oath. With right hand uplifted, each teacher solemnly took the following oath:

"I solemnly swear (or affirm) that I will support the constitution of the United States, the constitution of the State of Ohio, and the laws enacted thereunder, and that I will teach, by precept and

example, respect for the flag, reverence for law and order and undivided allegiance to the government of one country, the United States of America."

The last meeting of the Scioto County Teachers' Institute Friday afternoon was characterized by the social spirit. A program was arranged by Miss Gertrude Schmidt, with a number of solos. Dr. M. A. Leiper sang "A Little Bit of Heaven" and "Don't You Hear Me Calling You?" A vocal chorus sang "Battle" and several other humorous selections, which they dramatized. Miss Gertrude Schmidt sang "The Smiling of Your Smile." Miss Caroline McCoy accompanied

Recharging, repairs, testing—these are part of our service. We have the training and equipment to do this work well, at the least price consistent with good work.

Cheap work isn't really cheap at any price, and would only lose us customers.

But we regard this service as a part of our obligation to make Willard Batteries last as long as possible at least expense.

Another of our obligations is to distribute for Willard a battery that will last longer and doesn't need so many repairs—the Willard Battery with Threaded Rubber Insulation. It gives longer life with fewer troubles just as a cord tire does.

Drop in and let us tell you its remarkable performance record after over four years of service.

## Hanan's Rex Last

This medium round toe is very popular with business and professional men, owing to its neat appearance and comfortable fitting qualities. Made of the best brown Russian calf skin, by expert shoemakers. I also have this shape in black in a high shoe. My price today is from four to five dollars under the market price. Better buy a pair now and keep them for next season. Good shoes are an economy.

# Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Miss Wise—Will you please give me a recipe for making grape wine? I have the grapes already picked and would like the recipe as soon as possible.

A READER.

Grape Wine—Put the grapes, stems and all, into an open sack and mash them. Cover the sack with cheese cloth to prevent anything falling in, as one crumb of bread will turn the contents into vinegar. When the grapes have fermented, pass through a fruit press; turn the juice that has been extracted into a clean, glass jar, and let it remain on its side for a month, when your wine will be ready to be bottled. By no means disturb the cork or the wine will not be clear. Keep the wine in a dark cool place, and lay the bottles containing it on their sides. When the grapes are fermenting stir every day.

The woman who discovered a long lost ring on the finger of an unknown woman failed to give her address. If the address is sent in I will publish the letter about the ring as desired.

My Dear Miss Wise—I have a pretty knitted woolen sweater which has stretched to almost twice its former size. Do you know of a way to shrink it, also to wash it without losing its color? Also, Miss Wise, is there any vine that can be planted at this time of the year to be used as a shade next summer? If not, please tell me one that is planted in spring and grows rapidly. Thanking you for information.

JANE.

The only way I know is to wash it in lukewarm water with Ivory soap. Honey-suckle and wisteria are both hardy vines and can be planted now. In the spring moon vines and morning glory vines grow rapidly.

Dear Miss Dolly Wise—My hair looks terrible all summer because it gets so oily and sticky looking. What can I do? I would have to wash my hair every day to keep it looking half way all right. If I did wash it every day it would be so soft it wouldn't look nice.

EDITH.

When the hair is heavy with oil and you find it inconvenient to wash it, use the following remedy:

Bay rum, two ounces; witch hazel, two ounces; roseolin, eleven grains. Rub this well into the scalp daily.

Dear Miss Wise—What is the most interesting kind of evening entertainment for boys and girls of sixteen to eighteen years? How long should a girl go with a boy before she lets him kiss her? Is it proper for two girls to go to a dance without a gentleman escort? Could you tell us what will be the best for a dress for dances and parties in a small town this winter. Something in style? We are sixteen.

TWO GIRLS.

Probably girls and boys from sixteen to eighteen enjoy dancing more than anything else. There are more serious forms of mild prefer music or games. It is not a question of "how long" a girl should go with a boy before she

lets him kiss her. She should not permit it unless he has told her he loves her and wants to marry her. A girl should not go to a dance without a gentleman escort. You will have to put your own taste in selecting a dress. I would advise referring to fashion magazines for suggestions.

Dear Miss Wise—A boy has been going with one of my girl friends and the other night he telephoned me and asked me to come over, but I said I had another date. I didn't really, but didn't know what I should do about going with him. The girl is not my friend and yet we are very good friends. I never liked the boy very well when he was going with her. What do you think I should do.

NELL.

Since you do not like the boy, do not let him come to see you. Probably you will get more pleasure out of association with your girl friend than with him. It might cause him feeling if you let him come to see you.

Dear Miss Wise—I have been married three years and have two children. My husband has been very cruel to me lately. He talks with other girls to make me jealous, but I am not at all jealous.

I love my husband dearly and he cares nothing for me. He doesn't support me as he should and if he doesn't begin to treat me better I must leave him. I will break my heart to do so. I am only twenty-eight and he is twenty-nine. He says he is going to get married again and I told him if he did it would kill me. He said he didn't care at all. When he comes home for dinner at night he always finds fault with me and abuses me as if I were a dog.

I will have to leave and go to my people or get a divorce. I would like your advice.

WORRIED.

I think it would be a good plan to go to your parents for a while. When your husband has a taste of life without you he may realize that he cares for you too. If possible, it would be well to consult a lawyer before you go. If you love your husband there is danger that he could get a divorce on the grounds of desertion.

## SOCIETY

On Thursday afternoon, from 2:30 to 4:00, the teachers of the Deafness Department of the Franklin Avenue M. E. church (Hauptman) held a social for the teachers of the church. The social was held in the large social rooms of the church. Mrs. Harrison Gardner Foster, formerly of Portland, Oregon, is leading the fight in the southern states on the ratification by legislatures of the Susan B. Anthony amendment, recently passed by congress. She, with Miss Laura Clay, who for thirty years was a leader in national fights for equal suffrage, Mrs. Will D. Oldham and others, resigned their membership in the equal rights organization in Kentucky which supports the resolution. The women claim that the amendment is opposed to state rights and they are strong in their campaign which they have launched with the appeal, "Don't vote for the Susan B. Anthony amendment."

Mr. and Mrs. Frank Seymour and son Ben, of Fourth street, Mrs. E. H. Schoenberger, of Market street, Misses Marietta Hicks and Thelma Matthews left this morning in the Seymour car for Lancaster to spend the week-end.

Mary Miles Minter in "Yvonne from Paris." Her Latest and One of Her Best Pictures. Columbia Tonight Only.

In "Yvonne from Paris" which comes to the Columbia tonight only, Mary Miles Minter furnishes conclusive proof that she has not chosen the silent art for her profession, she could have attained the same enviable heights as a dancer.

When Joseph Frankland Polard wrote the story for American, he figured that a "double" would be necessary to put over the numerous dancing scenes, for the plot has to do with the adventures of a little French dancer, the Ida of Paris. Miss Minter, however, calmly assured everybody that she could handle the scenes perfectly well herself. When her director, Edmund J. Flynn, took her at her word, she surprised the whole company with her clever Terpsichorean performance.

## Eller Is Driven From Mound; Ring Saves Day

The Reds pulled another one out of the fire when they beat Boston yesterday, 7 to 4. The Boston team had a two-run lead until the Moran men began to assert themselves in the seventh inning when they scored four runs. Two more were added in the eighth and one in the ninth. The Reds are surely showing that never say die spirit these days. The score:

# Stage All Set For Big Doings In Wiedemann All-Star Struggle

The fans of Portsmouth are anxious to witness the game between Babe's All Stars and Charley Applegate's Wiedemanns of Cincinnati, scheduled to take place at Millbrook Park tomorrow, Sunday afternoon at 2:30 o'clock. This game will be the deciding one of a series of three, each team having won one, the locals capturing the first game 2 to 1 eleven innings and the Wiedemanns winning the second game, 2 to 0. The game tomorrow will be a terrific struggle, for the All Stars hope to win the deciding battle, which will establish them as one of the crack teams of the entire state.

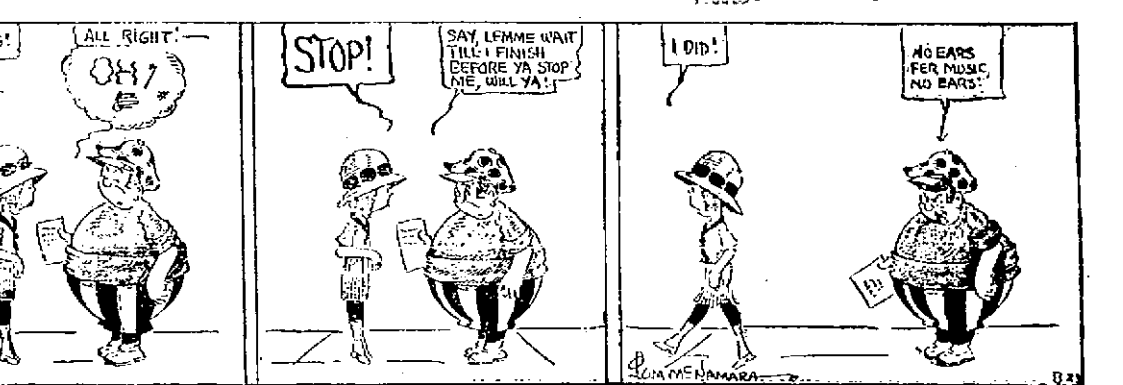

It is pretty generally acknowledged that the Wiedemann team is one of the strongest in Ohio. For many years this aggregation has been going along cleaning house with all opposition. The Wiedemanns have done almost everything this year, although Manager Applegate admits that the locals have given him all sorts of worry. He writes that his line up for tomorrow's game will be practically the same of three weeks ago when his team won at Millbrook by the score of 2 to 0. He says he will unblanket a new pitcher, who is headed for the big show and upon whom he will depend to take the odd game of the series. Manager Applegate must have a world of confidence in the young phenom, else he would not pin his faith upon him for so important a game. He will bring Mr. Bender along, so he will have a relief hurler if conditions become necessary—thoughtful Mr. Applegate.

It is practically assured that "Doc" Baughman will be in the box for the locals and it is also likely that Mr. Haupt, star center fielder for the Steel plant will be in the All Star line up. Haupt has demonstrated his ability on more than one occasion. In the game between the Steel Plant and Solway team last Wednesday, he was in tip top shape and all that is needed of the real heroes. Not only did he hit four difficult hits that came his way, but he pitched off three runs and showed all sorts of speed and judgment on the base lines. He is a ball player all over and known how to play the game. His friends will be out to give him all sorts of encouragement and they look to see him add considerable strength to the offensive playing of the locals.

With Baughman on the mound it is assumed the All Stars will have good pitching and the Wiedemann sluggers great.

There is not a fellow-fan in Portsmouth that is not dizzy these days at those traveling Redlegs. Just think of it, August 22, and the Reds six and one-half games ahead! The team that overtook them from now on is going to have to hit on all cylinders and then some. Moran has now one win in view. To come back to Cincinnati from the eastern trip so far ahead of the others that Jack McGraw will look like Field Marshall Hildebrand on November 11. In short, Moran is trying to adapt the ways of the wise and "Finish the Job."

Every loyal citizen is anxious for "Finish the Job" week. You say that you are sick and tired of these long-extending War Savings Campaigns? Well you might be, for Scio County has reached the point where it is necessary to come across.

Everyone is going to be busy this fall. When the time for the old World Series rolls around, and the fireworks start down in what once was Fountaineau, no one wants to worry about War Savings Stamps or anything serious. Accordingly it is "Finish the Job" by September 12.

It is a harder task than it was last year. In 1918, the W. S. S. message was shot into our heads by the guns in Europe. In 1919 each man must think it into his head amid the temptations of peace. And, yet the local

game will be a good one. The Spiders are expected to meet at 507 Fourth street at 11 a. m.

The Spiders will use the following lineup: Blake, ss; Grace, cf; G. Monk, 2b; H. Monk, 3b; Torgue, 1b; Cooper, lf; W. Monk, cf; Fortner, cf; Meyers, p; Lookalough and Cotrell, p.

## FINAL GOLF BATTLE IS STARTED

PITTSBURGH, Pa., Aug. 22—The final battle for the title of national amateur golf champion started this morning at the DuPont Country Club course between Robert T. (Bobby) Jones, of Atlanta, and S. Davidson Heron, Pittsburgh. Interest in the round was at a tense pitch owing to the stake and to the extreme youth of 17 year old Bobby Jones and that of his local opponent, who is but five years older. Heron is receiving the local backing, but even money has been placed on him. Jones and Heron won the right to compete for the championship yesterday when they defeated W. C. Forsythe, Pittsburgh, 5 and 3, and J. Wood Platt, Philadelphia, the conqueror of Francis Outmet, Boston, 7 and 6, respectively.

## SAYS REDS GENUINE CHAMPIONSHIP TEAM

Speaking of the Reds, Bill Hanna, a New York sport writer, says: "The Reds, in batting, fielding, pitching and above all, in a never-give-up spirit and team morale, are a genuine championship aggregation, and the best to represent the National League in the world's series that organization has since the Braves won in 1914. They will be a handful for any team they oppose."

## TALK ABOUT FANS; HERE IS A REAL ONE!

CINCINNATI, O., Aug. 21—There probably is no more enthusiastic follower of the Cincinnati Reds in the country than Jesse Allen, a negro "fan" of Cincinnati, Ky., who walks sixteen miles daily to receive reports of the Reds' drive for the National league championship.

Allen works for a farmer, four miles from Cincinnati. Promptly at 2 o'clock each afternoon he quits work, walks four miles to Cincinnati, makes the telephone office when the scores are received, and after the game walks home or supper. In the evening he returns to the town for a paper to get a detailed account of the game. Three times he has walked sixteen miles daily.

Two hundred baseball fans of Cincinnati are arranging a pool, and Cincinnati fans the pennant, they intend to make Allen with them to see the world's series. Allen has entertained the many times with his dancing, for whenever the telephone instrument ticks off the news of a Cincinnati score, Allen dances in the street, to the delight of the populace.

## THE BLACK VERSUS THE WHITE

In a large Chicago plant physical examinations are had of applicants for employment. Of these some interesting data and conclusions have been furnished by the company physician. On the examination of 544 Negroes in a batch. The first test was carrying a sack of books, weighing 125 pounds, across a room. All except twenty-six were able to do this, which was about the same average for an equal number of whites. Ninety-one were unfit for physical labor of any sort and so many had bad teeth, flat feet and disease taints that to have rejected them for these causes would have meant practically the loss of all. Though ninety per cent of the lot were under forty there were a distressing number that had heart disease distinctly developed. Twenty-nine had seriously poor eyes, but only two were too fat for work.

A striking summary is that the Negro ages quicker than the white, and as the years increase this difference becomes more accentuated. At 35 the black man is on a par physically with the white man at 40; when he reaches 40 he is all in, in so far as hard physical toil is concerned.

A conclusion that concerns all, is that practically all the ailments shown by the examination were produced through neglect of the ordinary rules of health and that nearly all cases could be cured by proper medical attention, with the intelligent help of the individual himself. Not even is heart disease excepted, the examiner advancing the opinion that this could be corrected through right living and exercise without violence or strain, never permitting the muscles to become soft and flabby.

## THEY ARE LOOKING OUR WAY

As eyes are turned to America," says Padewski, famous for years as a piano player, now the premier and the seemingly savior of the balance of Poland.

According to him Poland is in sore need of wheat and cotton and for these she looks to the United States, until the new crops can be harvested. His people are all eager to get back to the land, but though there is a new law providing for the distribution of really, serious obstacles lie in the way of its successful operation. It is comparatively easy to divide one estate of two thousand acres among one hundred families, but making forty horses and one binder go around among these is an entirely different proposition.

So we should say. Nor is that all the proposition. Those one hundred families will have to have other equipment, just as essential to the cultivation of the land and they will have to have houses for themselves and their stock and implements. Now Poland expects to raise wheat and cotton on her twenty acre patches also seems to be another problem.

But even with these vital matters confronting her, neither she nor Premier Padewski seems to be as much concerned about them as the matter of extension of Polish territory. It wouldn't be in good form to complain, but evidently the country is dissatisfied because she hasn't been made as big as in her idea she should be. Which merely shows that when you do either person or people a favor there is disappointment because more was not done.

## NEW LAW, SAME OLD VIOLATION

AMONG the useless junk left behind by the last state legislature was a statute defining the speeds at which automobiles should be operated. It isn't any use publishing the speeds fixed, because nobody is going to pay any attention to them. Everyone will go his own gait, or at least as near thereto as his little car can hustle.

There was no need for any new regulations for operating automobiles. We have had too much of that stuff already. What is wanted is enforcement of the laws of common sense and safety. Put all the prohibitive enactment between the covers that can be got there and they amount to nothing, unless the penalties and punishments set out be inflicted when occasion deserves and it does deserve every day, every hour, every minute, every second.

## STOOD UP REAL STRAIGHT

THE lower and upper houses of congress have concurred with great unanimity in overriding President Wilson's second veto of the repeal of the more-daylight law and with the turning back of the hands of the clock in October that had will go into the discard.

It was a rather pleasant and approvable fiction, to town people, though farmers are said to have been hostile to it.

There is a sense of surprise in house and senate being so decisive for its abrogation, all the more so because of the sharp conflict over it between city and country. Both deserve some credit for boldly seizing one horn of the dilemma and that the smaller and

shorter one.

Farmers claim they could not adjust their work to it, which seems strange, but that will be found out next year, when the townspeople come to adjust themselves to a return to the old standard, after a couple of years of the new. They are sure to have trouble and plenty of it in reconciling themselves to getting up at five, sun time.

## SHOULD CLOSE THE DOOR

CONGRESSMAN Johnson has introduced a bill, which if enacted into a law, will prohibit emigration to this country for two years.

This would seem to be both an admirable and timely provision. Europe is filled with disorder and unrest. It may be that many of her miserable citizens might desire to leave her confines and would most certainly turn their steps to America, but as opposed to that many others, who, under cover of war, have perpetrated gross wrong will be seeking refuge and first of all they, too, would seek America.

Until conditions have settled down the world over, until this country has adjusted itself from war into a new peace, that is to be entirely different in conditions from the old, it will be well for this country to allow the introduction of no new elements of population.

## THE WISHING PLANE

BY WILLIS WINTER

Although the children had had many delightful days in Switzerland they never had been high up on the mountains where ice and snow covered everything. So they were more than tickled when Captain Bravo told them he had arranged to take them up.

"How are you going to get there?" asked Jack.

"Why, in the airplane, of course," answered the captain. Then he told the children how he had talked with a man in the village nearby who knew the mountains well and could point out a great flat space near the top of one of them where the airplane could be landed.

"And he is going along with us, to show us the place and tell you all about things way up there," added the captain.

folks from other countries in mountain climbing trips.

You know many tourists—folks who travel most of the time—go to Switzerland to climb the beautiful but difficult mountains. Without someone who knows the mountains to lead them they would become lost and possibly lose their lives. The guides, who can be hired for so much a day, lead the way up the mountain side, teach the visitors how to climb, how to use their Alpine sticks, long sticks they carry, and steer them away from the tricky places of ice and snow which might break loose from the mountain sides and hurl them down to the valley below and kill them.

Lamar was one of these men.

On the short trip to the landing place Lamar pointed out to the children a little group of people climbing slowly up one of the peaks. The children noticed that they walked, one behind the other and that a strong rope ran from one man to the next and was tied around each man's body.

"The man leading them is the guide," said Lamar. "I think it's Raldo. He was going to take a party out today. He's one of the best mountaineers around this part of Switzerland."

"You see, there are many little peaks around each mountain below the highest peak. If the tourists tried to climb to the highest one without anyone to lead them they would lose their way and might climb over half a dozen little peaks without getting near the main one. Then there are a lot of crevasses, we call them, to cross. These are great big cracks in the mountain or in the ice that covers the upper parts of it. The guide picks out the safe places for crossing these great cracks. Sometimes it is hundreds of feet to the bottom of these holes and anyone who fell over the edge would be killed, of course."

Lamar stopped talking to the children while he pointed out the way to Captain Bravo. When he finished talking with the captain both the children said at once:

"Do tell us more about mountain climbing!" So he did. But you'll have to wait until tomorrow to hear what else he said.

O. O. MCINTYRE

NEW YORK, Aug. 23—They got Johnny Spanish, the gangster, over on Second avenue the other day. He had stepped out of a taxi with his wife in front of a cinema palace. Three men came along, shot him to death and walked leisurely around the corner.

Johnny Spanish turned straight three years ago after he did a "stretch up the river." Twelve years ago this frail young boy, just over from Spain, riding East Elbe, gave out and sold some funny kopecks in constant fear. He was of Jewish and Spanish birth, which accounts for his name. His first downfall was due to a

HON. WILLIAM LYON MCKENZIE KING

The successor of the late Wilfrid Laurier is but forty-five years of age and was only thirty-four when he first entered the Canadian house of parliament. He was born in Berlin (now Kitchener), Ont., on Dec. 17, 1874.

He got his early education in the public schools of his native town and then attended Toronto University, from which institution he graduated in 1895. He received his B. A. in 1896, and M. A. in 1897. He continued his studies with special reference to sociology, going to the University of Chicago, Harvard and abroad. He graduated with the degree of M. A. from Harvard in 1899 and was made Ph. D. in 1900.

In 1906 he entered parliament, resigning from the post of Deputy Minister of Labor to do so from North Waterloo as a follower of Sir Wilfrid Laurier. Later he was taken into the cabinet by Premier Laurier as Minister of Labor. In 1911 he gave up a proffered position on the Harvard faculty to enter the fight in support of Premier Laurier, but he was defeated.

Since leaving the house of commons he has been working out industrial problems and has just returned from a visit to Europe where he engaged in that work.

flowery girl—Beatrice Kostant known as the "Red Girl" in her jewelry store, named "Jigger." The latter was a great thing house robber.

The two met in a range fight and a innocent little girl playing in the streets was killed. The police blamed Spanish. Spanish "ducked" the town and while he was gone his girl took up with Kid Dropper. Dropper was a huge fellow and earned his nickname because of his ability to drop his enemies with a blackjack.

Kid Dropper and Big Alma went to a racket one night on the East Side. During the evening someone told Big Alma that Johnny Spanish was out, and behind a tree waiting for her. The girl went, knowing she would probably be killed. And he did try to kill her.

He fired three shots when she came near him, shooting her through the body. She was taken to a hospital and a few days later when a child was born the baby had two or three of its fingers shot off. Kid Dropper then went out looking for Spanish. But Spanish was also looking for him and shot Dropper in the neck in East Broadway. He was sent to Sing Sing for it.

And so it is that Johnny Spanish died as he had lived—by the gun.

She wore high white shoes and a red turban and was chewing gum. In her subway seat she was oblivious to the world while pouring over the latest work of the rose-garlanded truth horse of Aphrodite, cosmopolitan—who writes the red blooded, clean limbed—the press agent is talking.

The crimson flash started her cheeks, she takes a bath daily, disrobe, no curving limbs but kiss me on the forehead kind of rorle. Suddenly the train came to a downtown station with a lurching halt. The book flew out of her hand and across the aisle to the tip of a bearded old patriarch with side-wheel whiskers. As he picked it back, he remarked: "I'm glad to see you saved your chewing gum."

SOMETIMES WE WONDER IF THE BIRD IS REALLY HERE!

These two go so well together!

The craze for getting all tanned up is strictly Manhattanese. In other center they wear straw hats, carry parasols and sometimes wear so contacts. But to get tanned up in New York gives one a certain metropolitan cachet. It means you have been dipping on the sands at some beach and that you might have money. And one is certainly nothing in New York without the good old jack. Some Sunday reporters found that a few open air roof gardens in New York where the sun shines down all day had become popular for young ladies who lolled about in bathing suits. A group of Venuses were found sunning themselves on the flat roof and investigation showed that they were doing it on other roof tops. Of course these folk have money—but they haven't had time to get away to the country yet. So they are starting their summer tan early.

Upon the wall above my desk, Just on a level with my eyes, Is pinned a likeness, picturesque, A likeness that I highly prize.

A leaning man, a man of might, A truthful, earnest, honest man, Whom when he felt that he was right, Feared neither color, creed nor clan.

A man who with his gun and rod Spent many free relaxing hours, Who loved the Sun, the Sun, the Sun, As dew and daylight love the flowers.

He loved his country first and last, And for it gave a cherished son, And chafed because the battle's blast Knew not the shudder of his gun.

Preparedness was to him a creed, And justice was his daily goal, To pray for him there is no need, He was the Captain of his Soul.

# HUGE FINE AND IMPRISONMENT FOR PROFITEERS IN FOOD CONTROL ACT

## HOUSE PASSES BILL TO CURB PROFITEERS; NOW UP TO THE SENATE

WASHINGTON, D. C., August 23.—With adoption by the house of amendments extending the Lever food control act to peace times and broadening its scope to include clothing and other necessities, the next move in the fight to lower the high cost of living is up to the senate to which the measure now goes.

Adoption late yesterday of the amendments to the Lever act as reported out by the agricultural committee followed a five-hour debate in the house, in which an unsuccessful effort was made to have the provisions extended to profiteering in house and room rents.

The provisions of the act are extended to include clothing, containers of food, feed or fertilizers, fuel oil, and implements used in the production of necessities.

An amendment by Representative Strong, Republican, Kansas, to include kerosene and gasoline, was rejected by a close vote and an amendment by Representative Newton, Republican, Minnesota, to make the act applicable to cotton was eliminated on a point of order by Representative Blanton, Democrat, Texas. The penalty provision, which makes those found guilty of profiteering in the sale of the commodities named in the act liable to a fine of \$5,000 and imprisonment for two years, was retained as recommended by the committee.

While the food act is being considered in the senate, the house will continue with other measures designed to reduce the cost of living. The Hutchinson cold storage bill, modeled on the New Jersey act, to which President Wilson called attention in his recent address to congress, will be reported out of committee next week and taken up on the floor of the house.

## SCOURING WILDS OF MEXICO FOR OUTLAWS

MARFA, TEXAS, August 23.—Two forces of troops, Carranza federals operating far to the south and American cavalry further north, today are scouring the Conchos river region of Mexico in an endeavor to clear that section of bandits who precipitated an expedition into the southern republic by capturing and holding for ransom known dead bandits was the net result of the expedition at the beginning of the fifth day of operations below the border.

More rapid progress in the pursuit of the outlaws was expected today, yesterday's chase having been largely delayed by dispatch of supplies and forage to the American soldiers.

Major General J. T. Dickman, commander of the southern department, left last night for San Antonio, after completing an inspection of the border and familiarizing himself with the details of the punitive expedition. Before leaving the general said an effort would be made to pay the bandits the \$2,500 remaining of the ransom money for the survivors, though he did not say just how this would be done.

Rumors of further bandit captures and looting of bandit strongholds which found circulation at various times yesterday proved unfounded, but the possibility of using bombs in wiping out the bandits developed with the arrival of aerial bombs for experimental purposes and an announcement that these might be used if a bandit force should be found in any considerable numbers.

No information came from the expeditionary forces yesterday, except word brought here by aviators that the pursuit of the bandits still was being conducted. Reports that the forces would be withdrawn at a nearly date had no foundation. General Dickman said the expedition would remain in Mexico as long as they were following a hot trail. There was no explanation of the rescinding of the order for additional troops to support the punitive expedition.

## CARRANZA GOVERNMENT HAS NO INTENTION OF PROTECTING FOREIGN CAPITAL IN MEXICO

WASHINGTON, Aug. 23.—Officials here are somewhat disturbed, it was learned today, by an apparent determination on the part of Carranza to confiscate the oil property of foreign firms, including Americans, in spite of the protests lodged with the Mexican government by all the nations whose nationals have investments in Mexico.

Two public declarations by Carranza close to Carranza have expressed the president's stand on this matter, which public opinion, official and unofficial alike, except for the Carranzistas, have declared to be vital. The opinion of all classes in Mexico, as reported in the Mexico City newspapers and transmitted to the state department, is for a prompt and correct settlement of the petroleum question. It is said, of protecting foreign capital which has been declared to be the key to relations between the United States here and Mexico.

Newspapers and citizens, especially those of the educated class, according to reports in the state department, are alarmed because of the recognized danger of intervention, Mexico at least the protests lodged with the Mexican government by all the nations whose nationals have investments in Mexico.

Don Carlos Dufio, the eminent Mexican economist, asserts that foreign capital is absolutely necessary to the development of Mexico's resources and would not invest if they laid. In the face of these demands, now made public, Carranza's official circle has no notion, it is said, of protecting foreign capital in Mexico.

## ACCOMPLICE IN ROBBERY ARRESTED

CLEVELAND, O., August 23.—Walter H. O'Rourke, sought for some time by Cleveland detectives and express company operatives for participation in the theft of \$43,000 in old United States currency from an Akron express office, was arrested last night in Denver, according to dispatches from that city today.

Benjamin D. Monroe, the Akron clerk of the American Railway Express Company, who is sought for, actually stealing the money, and a woman, who is known to the government officers, are still at large, and federal agents have no immediate prospects for their apprehension.

The theft occurred June 10, and consisted of old currency taken from an express shipment consigned from Akron to the mint at Washington. O'Rourke, according to word from Denver, admitted to police there his part in the robbery.

Ten thousand dollars in old currency said to be part of the loot, was found on O'Rourke, according to dispatches. He is said to have insisted that he parted company with Monroe and the woman before starting west from Cleveland.

News of the looting of the government funds entrusted to the express company came to light for the first time August 7, almost two months after the crime.

Monroe was formerly a resident of Buffalo and had been in Akron only a few months. He had recently returned from overseas service.

O'Rourke's family live in Cleveland, but he had been making his home in Toledo. O'Rourke appeared in Akron in company with the woman known by the name of Watson, several weeks before the robbery. He claimed to be an automobile salesman.

## B. & O. Detective Killed By Negro

PARKERSBURG, W. VA., August 23.—Special Officer L. C. Speece, of the Baltimore and Ohio Railroad, was shot and instantly killed by an unidentified negro at 2 o'clock this morning, when Speece attempted to capture him from the "blind baggage" of train number 78. City Policeman McPherson was fired on three times when he took up the chase of the killer. Speece recently returned from France.

## UKRAINIANS TAKE ODESSA

LONDON, Aug. 23.—Ukrainian troops have captured Odessa, it is announced by the Ukrainian mission.

The Bolsheviks were reported driven from Odessa by the police in a recent dispatch to the British war office.

## ARMY SUPPLIES ARE HELD UP BY COAL STRIKE

LOS ANGELES, CAL., August 23.—Forty car loads of army supplies bound for troops on the border were held in the local freight yards today on account of the strike of trainmen on the Southern Pacific, Atchafalaya, Tulelake and Santa Fe, and the Los Angeles and Salt Lake railroads.

Santa Fe officials annulled all train last night because of inability to get engine crews to man them. They also announced that unless conditions changed, they would halt all inbound trains at San Bernardino today, because of congested yards here.

## Whole Town Of Nitro To Be Sold By Government

WASHINGTON, Aug. 23.—The town of Nitro, W. Va., a complete industrial community, embracing 137 manufacturing buildings, housing accommodations for 20,000 people, and the utilities and civic improvements that constitute the convenience of a city, is to be sold by the war department as built by the government at a cost of approximately \$100,000.

Nitro is the site of the second largest explosives powder plant in the world. The buildings, which must cover not only the powder plant and the other industrial units which were erected to prepare the ingredients of powder making, but the civic community as well, to which the United States also holds title, will be opened at 12 o'clock September 30 at the office of the chairman of the ordinance district sales board, 1710 Market street, Philadelphia.

The industrial community of Nitro, containing the plants needed to produce powder, stretches for more than four miles along the east bank of the Kanawha river.

Set up on the foothills overlooking the industrial area is the civic community, more than 1,000 furnished, portable houses, homes for the workmen, seventy-five permanently constructed executive residences, hotels, boarding houses, dormitories, club houses, general and special stores, cafeterias, and moving picture shows, a modern 400 bed hospital, a twenty-four room school house, large barracks and mess halls, together with a Y. M. C. A. building and recreation halls.

## SPEED UP CONSIDERATION OF TREATY IN COMMITTEE

WASHINGTON, D. C., August 23.—Speeding up consideration of the peace treaty in the hope of reporting it to the senate before the end of next week, the foreign relations committee changed its plans for a public hearing today and prepared to dispose of proposed amendments and reservations as rapidly as possible.

Except for a hearing of the Egyptian case Monday, the committee plans to work on the treaty without interruption until Friday and members on both sides predict by that time a report will be ready.

Both Republican and Democratic leaders predict that the committee will adopt several amendments to the body of the treaty, but the Democrats assert all of them will be voted down in the senate.

Among the proposals which it was thought might be reached today was one to strike out entirely the provision giving Japan control in Shantung province China. It is this amendment which both sides expect to develop the great strength on the senate floor.

Other amendments proposed cover a wide range. Senator Fall, Republican, New Mexico, wants to have no American representation on the various reconstruction commissions, dealing with European matters. Senator Knox, Republican, Pennsylvania, proposes that the peace terms and the League of Nations covenant be separated and the latter reserved for later consideration. Senator Borah, Republican, Idaho, would defeat the league covenant entirely by simply striking it out of the treaty.

Amendments also are to be offered to the economic and labor sections.

Mrs. John Skelton, of McConnel avenue, who has been very ill for the past week, is improving.

## RUMANIANS WARNED BY ALLIED COUNCIL

PARIS, Aug. 23.—The supreme council of the peace conference has not received any messages indicating the resignation of Archduke Joseph, head of the Hungarian government, but expects to hear within a few days that he has quit office.

The separation committee of the peace conference has drafted a note, which the supreme council will probably send to Rumania immediately, warning the Bucharest government that reparations under the German and Austrian treaties will be entirely cut off if the Rumanians continue to make requisitions, and that all requisitions already made by the Rumanians in Hungary will be deducted from that nation's share in the indemnity to be paid by Austria.

Rumanian soldiers still continue seizing foodstuffs, farming machinery and other materials in Hungary, and are sending them to Rumania, but the fact that an important railroad bridge near the Hungarian frontier has been wrecked makes it impossible for the goods to enter Rumania. A large number of cars are stalled at that point and officers are invoking supplies which they contain.

## WEATHER

0110.—Showers and thunder storms probably tonight and Sunday. Cooler Sunday in north and west portions.

## OPENING STOCKS

NEW YORK, August 23.—Apart from further moderate heaviness of a few specialties today's stock market closed with a resumption of the upward movement. Equipments, ship, flour, oil and tobacco had initial advances of 1 to 2 points. Motors and United States also reflected a continuation of the recent demand and foodstuffs were featured by the strength of copper products. Coppers and allied metals added fractionally to yesterday's gains. Crude oil rose. Steel, but U. S. Steel made only a slight advance.

## PAGE QUITS AS AMBASSADOR

WASHINGTON, August 23.—Thomas Nelson Page, of Virginia, has formally resigned as ambassador to Italy. It was said today at the state department. After his return from Italy several months ago, Mr. Page announced that he would resign, but so far as could be learned today his successor has not been selected.

Brant Whitlock, minister to Belgium, who has been mentioned for the post at Rome, called to see the president today.

Here On Visit  
W. C. Weichorst, of West Homestead, Pa., is visiting relatives here and at Hiram Vista. He is the brother of Albert Weichorst, councilman of the First Ward.

## PROSECUTORS TO FOLLOW SUIT

COLUMBUS, O., Aug. 23.—Prosecutors in many Ohio counties, it is said, are preparing to follow the precedent established by Prosecuting Attorney Schlesinger, of Franklin county, in seizing foodstuffs held in storage longer than the time allowed by law, if the supreme court approves the action taken by the Franklin county prosecutor.

Prosecutor Samuel Doerfler, of Cuyahoga county, has wired Schlesinger for a copy of the decision of the court of appeals in this case and is prepared if it is said to seize more than 2,000,000 pounds of fresh meats and poultry held in storage in Cleveland warehouses.

Governor Cox asked federal authorities to seize this food stuff, but no action has been taken. The supreme court is expected to meet Saturday to pass on the Franklin county case.

## FLAYS LABOR PROVISIONS OF PEACE TREATY

WASHINGTON, D. C., August 23.—The labor provisions of the peace treaty fail to cope with threatening labor evils and point toward a program which may disturb the domestic peace of the United States, Senator Thomas, Democrat, Colorado, declared in a speech today in the senate. He expressed grave doubt whether that section of the treaty could be accepted under the constitution.

The international labor conference to be set up, Senator Thomas declared, would be an important international part of the League of Nations, though the provisions creating it are not included in the league covenant.

"Inasmuch as organized labor correctly speaks of itself as a class," said the Colorado senator, "it is entirely apt to say that by including this program in the treaty, distinct recognition and separate organization are given to a class. To enshrine a class, whether by revolution or by treaty, is but to estrange other classes."

## THE BLACK VERSUS THE WHITE

**I**N a large Chicago plant physical examinations are had of applicants for employment. Of these some interesting data and conclusions have been furnished by the company physician, on the examination of 544 Negroes in a batch. The first test was carrying a sack of books, weighing 125 pounds, across a room. All except twenty-six were able to do this, which was about the same average for an equal number of whites. Ninety-one were unfit for physical labor of any sort and so many had had teeth, flat feet and disease taints that to have rejected them for these causes would have meant practically the loss of all. Though ninety per cent of the lot were under forty there were a distressing number that had heart disease distinctly developed. Twenty-nine had seriously poor eyes, but only two were too fat for work.

A striking summary is that the Negro ages quicker than the white, and as the years increase this difference becomes more accentuated. At 36 the black man is on a par physically with the white man at 40; when he reaches 40 he is all in, in so far as hard physical toil is concerned.

A conclusion that concerns all, is that practically all the ailments shown by the examination were produced through neglect of the ordinary rules of health and that nearly all cases could be cured by proper medical attention, with the intelligent help of the individual himself. Not even is heart disease excepted, the examiner advancing the opinion that this could be corrected through right living and exercise without violence or strain, never permitting the muscles to become soft and flabby.

## THEY ARE LOOKING OUR WAY

**A**Ll eyes are turned to America," says Paderewski, famous for years as a piano player, now the premier and the seemingly savior of the balance of Poland.

According to him Poland is in sore need of wheat and cotton and for these she looks to the United States, until the new crops can be harvested. His people are all eager to get back to the land, but though there is a new law providing for the distribution of really serious obstacles lie in the way of its successful operation. It is comparatively easy to divide one estate of two thousand acres among one hundred families, but making forty horses and one binder go around among these is an entirely different proposition.

So we should say, Nor is that all the proposition. These one hundred families will have to have other equipment, just as essential to the cultivation of the land and they will have to have houses for themselves and their stock and implements. How Poland expects to raise wheat and cotton on her twenty-acre patches also seems to be another problem.

But even with these vital matters confronting her, neither she nor Premier Paderewski seems to be as much concerned about them as the matter of extension of Polish territory. It wouldn't be in good form to complain, but evidently the country is dissatisfied because she hasn't been made as big as in her idea she should be. Which merely shows that when you do either person or people a favor there is disappointment because more was not done.

## NEW LAW, SAME OLD VIOLATION

**A**MONO the useless junk left behind by the last state legislature was a statute defining the speeds at which automobiles should be operated. It isn't any use publishing the speeds fixed, because nobody is going to pay any attention to them. Everyone will go by his own gait, or at least as near thereto as his tinizzie can hustle.

There was no need for any new regulations for operating automobiles. We have had too much of that stuff already. What is wanted is enforcement of the laws of common sense and safety. Put all the prohibitive enactment between the covers that can be got there and they amount to nothing, unless the penalties and punishments set out be inflicted when occasion deserves and it does deserve every day, every hour, every minute, every second.

## STOOD UP REAL STRAIGHT

**T**HE lower and upper houses of congress have concurred with great unanimity in overriding President Wilson's second veto of the repeal of the no-repeal daylight law and with the turning back of the hands of the clock in October that fad will go into the discard.

It was a rather pleasant and approvable fiction, to town people, though farmers are said to have been hostile to it.

There is a sense of surprise in house and senate being so decisive for its abrogation, all the more so because of the sharp conflict over it between city and country. Both deserve some credit for boldly seizing one horn of the dilemma and that the smaller and

shorter one. Farmers claim they could not adjust their work to it, which seems strange, but that will be found out next year, when the townspeople come to adjust themselves to a return to the old standard, after a couple of years of the new. They are sure to have trouble and plenty of it in reconciling themselves to getting up at five, sun time.

## SHOULD CLOSE THE DOOR

**C**ONGRESSMAN Johnson has introduced a bill, which if enacted into a law, will prohibit emigration to this country for two years.

This would seem to be both an admirable and timely provision. Europe is filled with disorder and unrest. It may be that many of her unstable citizens might desire to leave her confines and would most certainly turn their steps to America, but as opposed to that many others, who, under cover of war, have perpetrated gross wrong will be seeking refuge and first of all they, too, would seek America.

Until conditions have settled down the world over, until this country has adjusted itself from war into a new peace, that is to be entirely different in conditions from the old, it will be well for this country to allow the introduction of no new elements of population.

## THE WISHING PLANE

**BY WILLIS WINTER**

Although the children had had many delightful days in Switzerland, they were not high up on the mountains where ice and snow covered everything. So they were more than tickled when Captain Brave told them he had arranged to take them up.

"How are you going to get there?" asked Jack.

"Why, in the airplane, of course," answered the captain. Then he told the children how he had talked with a man in the village nearby who knew the mountains well and could point out a great flat space near the top of one of them where the airplane could be landed.

"And he is going along with us, to show me the place and tell you all about things way up there," added the captain.

So, after what seemed like weeks to Jack and June, but was really only another day, the trip to the mountain top was made. The Swiss mountain guide came early. He was a little fellow, but very strong, as the children found when he helped them into the plane. His name was Loman and the children soon learned that he spent most of his time leading parties of

hikers from other countries to mountain climbing trips.

You know what tourists—folks who travel most of the time—go to Switzerland to climb the beautiful but difficult mountains. Without someone who knows the mountains to lead them they would become lost and possibly lose their lives. The guides, who can be hired for so much a day, lead the way up the mountain sides, teach the climbers how to climb, how to use their

Alpine sticks, long poles they carry, and steer them away from the rocky places of ice and snow which might break loose from the mountain sides and hurt them down to the valley below and kill them.

Loman was one of these men. On the short trip to the landing place Loman pointed out to the children a little group of people climbing slowly up one of the peaks. The children noticed that they walked, one leading the other and that a strong rope ran from one man to the next and was tied around each man's body.

"The man leading them is the guide," said Loman. "I think it's Lohle. He was going to take a party out today. He's one of the best mountaineers around this part of Switzerland."

"You see, there are many little peaks around each mountain before the high, real peaks. If the tourists tried to climb the highest one without anyone to lead them they would lose their way and might climb over half a dozen little peaks without getting near the main one. Then there are a lot of crevasses, we call them, to cross. They are great big cracks in the mountain or in the ice that covers the upper parts of it. The guide picks out the safe places for crossing these great cracks. Sometimes it is hundreds of feet to the bottom of these holes and anyone who fell over the edge would be killed, of course."

Loman stopped talking to the children while he pointed out the way to Captain Brave. When he finished talking with the captain both the children said at once:

"Do tell us more about mountain climbing." So he did. But you'll have to wait until tomorrow to hear what else he said.

## New - York - Day - By - Day

BY O. O. MCINTYRE

NEW YORK, Aug. 23.—They got Johnny Spanish, the gangster, over on Second avenue the other day. He had stepped out of a taxi with his wife in front of a cinema palace. Three men came early, shot him to death and walked leisurely around the corner. Johnny Spanish turned straight

three years ago after he did a "stretch up the river." Twelve years ago this frail young boy, just over from Spain, ruled East Side gangs and held stuss house keepers in constant terror. He was of Jewish and Spanish birth, which accounts for his name. His first downfall was due to a

### DON WILLIAM LAYN MACKENZIE KING

The successor of the late Wilfrid Laurier is but forty-five years of age and was only thirty-four when he first entered the Canadian house of parliament. He was born in Berlin (now Kitchener). Out, on Dec. 17, 1874.

He got his early education in the public schools of his native town and then attended Toronto University, from which institution he graduated in 1895. He received his B. A. in 1896, and M. A. in 1897. He continued his studies with special reference to sociology, going to the University of Chicago, Harvard and abroad. He graduated with the degree of M. A. from Harvard in 1898 and was made Ph. D. in 1898.

In 1908 he entered parliament, resigning from the post of Deputy minister of labor to do so from North Waterloo as a follower of Sir Wilfrid Laurier. Later he was taken into the cabinet by Premier Laurier as minister of labor. In 1911 he gave up a preferred position on the Harvard faculty to enter the fight in support of Premier Laurier, but he was defeated.

Since leaving the house of commons he has been working out industrial problems and has just returned from a visit to Europe where he engaged in that work.

**Bowery girl**—Beatrice Kostant known as "Big Alina," to buy her jewelry, home in on the graft of another gangster named "Honey." The latter was a great stuss house robber.

The two met in a dark fight and an innocent little girl playing in the streets was killed. "The police found Spanish," "ducked" the town and while he was gone his girl took up with Kid Dropper. Dropper was a huge fellow and earned his nickname because of his ability to drop his enemies with a blackjack.

Kid Dropper and Big Alina went to a racket one night on the East Side. During the evening someone told Big Alina that Johnny Spanish was outside behind a tree waiting for her. The girl went, knowing she would probably be killed. And he did try to kill her.

He fired three shots when she came near him, shooting her through the body. She was taken to a hospital and a few days later when a child was born the baby had two or three of its fingers shot off. Kid Dropper then went out looking for Spanish. But Spanish was also looking for him and shot Dropper in the neck in East Broadway. He was sent to Sing Sing for it.

And so it is that Johnny Spanish died as he had lived—by the gun.

## SOMETIMES WE WONDER IF THE BIRD IS REALLY HERE!

These two go so well together.

The craze for getting all tanned up is strictly Manhattan. In other parts they wear straw hats, carry parasols and sometimes wear sun-bonnets. But to get tanned-up in New York gives one a certain metropolitan cachet. It means you have been dipping on the sands at some beach and that you might have money. And one is certainly nothing in New York without the good old jack. Some Sunday reporters found that a few open air roof gardens in New York where the sun shines down all day had become popular for young ladies who lolled about in bathing suits. A group of Venuses were found sunning themselves on the Ritz roof and investigation showed that they were doing it on other roof tops. Of course these folk have money—but they haven't had time to get away to the country yet. So they are starting their summer tan early.

The little side street beaneries off Broadway have attained great popularity of late. People used to sneak in but now they go in openly and unashamed and come out as nonchalant as if as though leaving old Sherry's or Dear Old Del's.

**Visited Garden**  
 Willy Kates, of Twelfth street, has returned from a visit to home folks at itarden.

Roosevelt has gone, his matchless mind No more will guide his hand and pen, But, going he has left behind His image in the hearts of men.

A brainy man, a man of might, A truthful, earnest, honest man, Who, when he felt that he was right, Feared neither color, creed nor clan.

A man who with his gun and rod Spent many free relaxing hours, Who loved the Soil, the Sun, the Rod, As dew and daylight love the flowers.

He loved his country first and last, And for it gave a cherished son, And chafed because the battle's blast Knew not the thunder of his gun.

Preparedness was to him a creed, And Justice was his daily goal, To pray for him there is no need, He was the Captain of his Soul.
